

MASTERING E/M CODING

THE KEY TO YOUR REVENUE CYCLE

What is E/M Coding?

E/M codes represent the level of service and reimbursement for the care the physician has provided to the patient. It describes the depth of work and medical decision making involved in **Evaluating** the patient's condition and **Managing** the patient's care. They are used in a variety of settings, including physician offices, nursing facilities, and hospitals.

WHAT WE OFFER

Comprehensive Workshops

Face-to-face instruction to jump-start your training

Remote Sessions

Interactive video conferences to reinforce your learning

On-Demand Webinar Series

Pre-recorded webinars for review at your convenience

Continuing Education Credits

Our programs offer CEUs and CMEs

Our trainers can provide you with the knowledge to fully document the amount and complexity of the work performed to support the billed level of payment. We offer in-depth training with hands-on coding examples and analysis so you will be fully prepared.

WHY DO I NEED E/M CODING TRAINING?

- IMPROVE DOCUMENTATION
- MAXIMIZE REIMBURSEMENT
- REDUCE DENIALS
- MINIMIZE RISK

WHAT WILL YOU LEARN?

E/M CODING is designed to reflect the patient's medical treatment, management options, tests and data evaluated, and level of risk.

E/M CODING FAST FACTS

- Three little known secrets to accurate E/M coding
- The definition of Medical Necessity, to enable accurate coding
- Documentation guidelines
- How to clinically differentiate E/M service levels
- Effective techniques for communication with physicians regarding Medical Necessity

HOW WE CAN HELP

We offer a variety of training workshops and webinars.

These comprehensive sessions address everything you need to know about Evaluation and Management Coding including documentation critical to billing guidelines, codes and structure for revenue cycle management.

Designed for a more personalized learning experience, our trainings offer hands-on learning with opportunities to practice coding scenarios.

WHICH WORKSHOP DO I NEED?

E/M CODING TRAINING WORKSHOP

This workshop provides a step-by-step process for understanding the required documentation needed for selecting the appropriate E/M code. We will discuss the elements of documenting a patient history, recording the exam, and determining the level of medical decision making. Participants will have the opportunity to practice with real world scenarios.

E/M CODING WEBINAR SERIES

The five webinars are broken down into the following sessions:

- E/M Documentation & Guidelines Webinar 1
- E/M Key Component: History Webinar 2
- E/M Key Component: Physical Examination Webinar 3
- E/M Key Component: Medical Decision Making Webinar 4
- E/M Alternate Components: Time & Preventive Medicine Webinar 5

ATTENDEES ARE ELIGIBLE FOR CEU CREDITS.

Visit the **Calendar of Events** page on our website at healthARCH.org for current training dates.
