

MASTERING ICD-10

What is ICD-10?

ICD-10 IS A SYSTEM FOR MEDICAL DIAGNOSIS AND PROCEDURE CODING FOR CARE MANAGEMENT AND BILLING PURPOSES THAT WENT INTO EFFECT **OCTOBER 1, 2015**. IT IMPACTS EVERY SYSTEM, PROCESS AND TRANSACTION THAT CONTAINS OR USES A DIAGNOSIS OR PROCEDURE CODE.

WHAT IS THE PURPOSE OF ICD-10?

ICD-10-CM and ICD-10-PCS coding provides greater clinical details and have the potential to reveal more about the quality of care, so that data can be used in a more meaningful way to better track the outcomes of care.

WHY DO I NEED ICD-10 CODING TRAINING?

ICD-10 requires more rigorous reporting requirements, and our AHIMA-Approved trainers can provide you with the curriculum and knowledge your practice needs to be fully compliant. We offer in-depth training with hands-on coding examples and analysis in our full day workshops to fully prepare you for the new coding standards.

- **LEARN THE NEW CODING REQUIREMENTS** - ICD-10 procedure coding is more comprehensive and detailed than ICD-9.
- **NON-COMPLIANCE WILL AFFECT REVENUE** - claims will be delayed or denied and will not be processed.
- **THERE ARE NO EXEMPTIONS** - all HIPAA-covered entities including Providers, Payors and Vendors must use ICD-10.

WHAT ARE THE BENEFITS OF ICD-10?

ICD-10 CODING is designed to capture diagnoses and procedures that reflect current technology and medical treatment. Understanding the specificity of ICD-10 codes enables the provider to document appropriately.

ICD-10 FAST FACTS

- ICD-10 applies to all HIPAA-covered entities
- ICD-10-CM is for diagnosis coding
- ICD-10-PCS is for inpatient procedure coding
- ICD-10-CM/PCS contains more than 141,000 codes
- Provider claims not submitted using ICD-10 codes will be rejected
- Payments to providers depends on the ICD-10 code confirming the Medical Necessity of the visit

HOW WE CAN HELP

We offer a variety of training formats to suit your needs including face-to-face workshops, remote sessions and online webinars. Our comprehensive sessions will address everything you need to know about implementation critical to billing guidelines, codes and structure for ICD-10-CM or PCS. Designed for a more personalized learning experience, these classes offer hands-on learning with opportunities to practice coding scenarios.

WHICH WORKSHOP DO I NEED?

ICD-10-CM BASIC TRAINING

For entry-level coders and front desk personnel to develop basic coding skills including understanding the coding structure and key search terms.

ICD-10-CM COMPREHENSIVE TRAINING

For coding professionals who are active coders. It covers changes in the structure of ICD-10-CM and an in-depth approach to understanding the new guidelines, conventions, diagnostic, and chapter-specific body systems as well as practicing coding scenarios.

ICD-10-CM FOR PHYSICIANS AND CLINICIANS

Encompasses guidelines, conventions, diagnostic, and chapter-specific body system coding. It covers clinical documentation and specificity required by physicians.

ICD-10-PCS TRAINING SESSION

For inpatient hospital coding and covers body system, root operation, body part, approach, device and qualifier sections.

ON DEMAND WEBINARS

A series of six different pre-recorded one hour webinars and a separate three hour refresher webinar that allow participants to view online at their convenience.

ATTENDEES ARE ELIGIBLE FOR CEU CREDITS BASED ON THE SELECTED WORKSHOP.
